## Key recommendations to improve commitments on obesity and population level nutrition

Domain	Tertile	Key recommendations
<b>STRAT – Corporate nutrition strategy</b>	1	<ul style="list-style-type: none"> <li>Publish a specific national-level commitment to improve population nutrition and health,</li> <li>Report regularly on this commitment and on the company's objectives at the national-level, and have the report externally reviewed,</li> <li>Include SMART (specific, measurable, achievable, relevant and time bound) objectives and targets within nutrition strategy,</li> <li>Incorporate Key Performance Indicators (KPIs) of management linked to nutrition strategy, policy, and targets, and provide a comprehensive table of these KPIs accessible through the company's website or reports,</li> <li>Enhance comprehensiveness by encompassing multiple domains, including formulation, marketing, and labelling, within the strategic document,</li> <li>Refer to national and global priorities (e.g. World Health Organization recommendations and Sustainable Development Goals) within the overarching nutrition strategy.</li> </ul>
<b>FORM – Product formulation</b>	1	<ul style="list-style-type: none"> <li>Publish a comprehensive set of specific national-level commitments related to new product development and reformulating its existing products with respect to nutrients of concern and energy,</li> <li>Participate in industry or government-led product reformulation initiatives and report on the company's website or annual report,</li> <li>Develop and publish SMART targets to reduce sodium, saturated fats, added sugars and portion sizes across the product portfolio,</li> <li>Adopt an official nutrient profiling system (e.g. Nutri-Score) to guide reformulation efforts,</li> <li>Disclose policy position regarding product reformulation in relation to nutrients of concern and support WHO's position.</li> </ul>

<b>LABEL – Nutrition labelling</b>	1	<ul style="list-style-type: none"> <li>• Provide clear and comprehensive online nutritional information for all products, on a per 100g/ml basis,</li> <li>• Commit to provide information on food composition to national authorities for all products on request,</li> <li>• Support and commit to a Nutri-Score implementation plan across all product categories,</li> <li>• Disclose policy position regarding front-of-pack labelling and support WHO's position,</li> <li>• Publish a commitment to label products with nutrition and health claims only when products are healthy, according to an official nutrient profiling system.</li> </ul>
<b>PROMO – Product and brand promotion</b>	1	<ul style="list-style-type: none"> <li>• Make and publish commitments to reduce the exposure of children to unhealthy food marketing on own website,</li> <li>• Develop a marketing policy that applies to children up to the age of 18 years and that defines a target audience using children's peak viewing times,</li> <li>• Make a comprehensive public commitment to not sponsor children's events with unhealthy products and brands,</li> <li>• Commit not to use marketing of unhealthy products and brands in settings where children gather (in and near early childcare settings, primary schools, secondary schools, family and child clinics, paediatric services or other health facilities, sporting or recreation centres, etc.),</li> <li>• Commit not to use celebrities, fantasy and animation characters and premium offers in marketing of unhealthy products to children,</li> <li>• Audit/monitor compliance with commitments to limit marketing to children at the national level by an independently appointed third party and publish the results,</li> <li>• Adopt an official nutrient profiling system (e.g. WHO Europe nutrient profile model) to classify products for the purpose of promotion to children,</li> <li>• Disclose policy position regarding reducing children and adolescents' exposure to the marketing of unhealthy food and support WHO's position.</li> </ul>
<b>ACCESS – Product accessibility</b>	1	<ul style="list-style-type: none"> <li>• Publish a specific commitment addressing the price/affordability of healthier products relative to less healthy products,</li> <li>• Implement a specific national-level policy aimed at augmenting the proportion of healthy products within the company's portfolio,</li> <li>• Commit to reduce the availability of unhealthy products and increase the availability of healthy products in settings,</li> <li>• Adopt an official nutrient profiling system (i.e. Nutri-Score) to classify products for the purposes of product accessibility,</li> <li>• Disclose policy position on making healthier foods relatively cheaper and unhealthy foods relatively more expensive and support WHO's position.</li> </ul>
<b>RELAT – Relationships with other organisations</b>	1	<ul style="list-style-type: none"> <li>• Publicly disclose professional organizations, scientific events, external research, nutrition education programs and active lifestyle programs funded or supported by the company at national-level, including awards/prizes, to clarify the nature of the support,</li> <li>• Publicly disclose the groups or organizations funded or supported by the company at national-level for philanthropic purposes,</li> <li>• Publicly disclose the company's involvement in public-private partnerships and/or joint ventures with government organisations/agencies,</li> <li>• Publish information on political donations or statement of no activity within this area,</li> <li>• Publicly disclose the company's support for industry associations, think tanks, interest groups, community organizations, or other lobbying organizations related to population nutrition, obesity, and NCD issues on its own website,</li> <li>• Publicly disclose submissions to public consultations regarding relevant population nutrition policies.</li> </ul>
